

## Lithofin MN Easy-Clean

### Description

A special product from the LITHOFIN range for marble, natural stone and cast stone (MN). Mildly alkaline, ready-to-use cleaning product based on special cleaning and care ingredients.

### Properties

Highly active ingredients quickly dissolve dirt, oil and grease, so that easy and streak-free wiping is possible. At the same time, additives ensure that the protective effect of an impregnation is not damaged during ongoing use. The surface can thus remain stain-free for a long time. Lithofin MN Easy-Clean leaves a pleasant smell.

Note: On surfaces impregnated with Lithofin STAINSTOP, Lithofin MN Easy-Clean maintains and supports the effectiveness of the protection.

#### Specifications:

Density: approx. 1.0 g/cm<sup>3</sup>

pH value: approx. 8

Appearance: Thin, colorless, clear

Smell: fresh, perfumed

Solubility in water: good, complete

### Scope

For regular, daily cleaning of all natural stone surfaces such as kitchen worktops, table tops and in the entire sanitary area. Particularly suitable for use on marble, limestone, as well as for (quartz) composite. Also ideally suited for ceramics, glass and plastic surfaces. Ideal for quick cleaning in between.

### Processing

Spray Lithofin MN Easy-Clean over the entire surface. After a short time, wipe the surface with a cleaning cloth. If necessary, wipe with a dry cloth.

Please note: Do not spray on hot surfaces.

Coverage: Up to approx. 40 m<sup>2</sup> per litre.

Note: For heavier soiling, we recommend

Lithofin MN Power-Clean.

### Recommendation

Natural stone floors should be mopped with a damp cloth regularly. The following care method is particularly effective for polished marble:

For wiping, use Lithofin MN Wash & Clean 3 to 4 times and then 1 time Lithofin MN EASY-CARE.

### Storage

Cool and closed. Not above 25°C;  
Can be stored for up to approx. 3 years.

### Environmental protection

The surfactants are biodegradable in accordance with Regulation (EC) No. 648/2004 (detergents regulation).

Disposal: The container is made of environmentally friendly polyethylene (PE) and is recyclable. Rinsed containers can be disposed of and recycled via the recyclable material collection system (see note on label).

For information on labelling, transport and disposal, please refer to the safety data sheet.

### Packaging

a) 500 ml bottle with Sprayer (10 per box)

b) 1 litre refill-bottle (10 per box)

Please note that the environmental and safety information applies to the (concentrated) product in delivery form. If dilution is appropriate for the application, the classification may change.

This information can and should only provide non-binding advice.

The use of the products must be adapted to the local conditions and the surfaces to be treated. If there is no experience and in all cases of doubt, the product should be tried out in an inconspicuous place beforehand.
