

## Lithofin P&L Care Cleaner for Parquet and Laminate

### Description

A special product for sealed parquet and cork floors, laminate and all plastic floors.

Mildly alkaline concentrate based on high-quality cleaning ingredients and specially tailored care components.

### Features

Highly active ingredients remove the dirt particles from the surface and keep them suspended during the cleaning process, making them easy to absorb. The remaining wafer-thin care film is wax-free and does not build up layers. It also ensures that the appearance of the surface is improved during continuous use, the surface becomes more beautiful and stronger in colour and structure. The next wiping process is made easier, the natural shine of the coating is retained. Lithofin P&L Care Cleaner leaves a pleasant smell.

### Technical data:

Density: approx. 1.0 g/cm<sup>3</sup>

pH value: approx. 8.0

Appearance: liquid clear, yellowish

Smell: fresh, perfumed

Solubility in water: good, complete

### Scope of application

For regular mopping care for sealed parquet and cork floors, laminate and all synthetic floors.

Lithofin P&L Care Cleaner guarantees a well-groomed appearance.

### Application

Always add Lithofin P&L Care Cleaner to the lukewarm mopping water, 1 shot (approx. 20 g) per bucket of water (8 litres). Wipe the surfaces with a damp cloth and let them dry. Do not wipe with clean water.

Important – Please note: The floors described can absorb water in the seam area and swell in the process. Therefore, avoid standing wetness at all costs.

Please be sure to follow the processing and care instructions of the floor manufacturers.

Yield: Lithofin P&L Care Cleaner is a high-yield concentrate and therefore very economical to use. 30 to 40 applications correspond to 400 to 600 m<sup>2</sup>/litre.

### Storage

Cool and closed. Can be stored for about 5 years.

### Environmental protection

The surfactants are biodegradable in accordance with Regulation (EC) No. 648/2004 (detergents regulation).

Disposal: The container is made of environmentally friendly polyethylene (PE) and is recyclable. Rinsed containers can be disposed of via the recyclable material collection system (see note on label).

For information on labelling, transport and disposal, please refer to the safety data sheet.

### Packaging

a) 1 litre bottle with child-proof cap (10 per box)

Please note that the environmental and safety information applies to the (concentrated) product in delivery form. If dilution is appropriate for the application, the classification may change.

This information can and should only provide non-binding advice.

The use of the products must be adapted to the local conditions and the surfaces to be treated. If there is no experience and in all cases of doubt, the product should be tried out in an inconspicuous place beforehand. (EN1.26gps/9.25)
